

I am Writing on behalf of KLOVE in the Denver area. We have been listening to this station for almost 3 years, and I cannot stress how important this station is to our family. The impact on our daily lives is huge. We listen every day, almost all day. It is nice that I dont have to worry about what my children are hearing on the radio. There are no other stations in this area that I know of that play this type of music.

Please leave KLOVE on the air!

Sincerely,

D. Jade Anderson
